ABSTRACT

This publication presents a part of the data provided by institutions of higher education in response to a questionnaire entitled "Financial Statistics of Institutions of Higher Education, 1969-70," which was included in the fifth annual Higher Education General Information Survey (HEGIS). This publication deals with the property related data. Highlights indicate: (1) The value of property owned or utilized by institutions of higher education at the end of 1969-70 fiscal year was \$53.1 billion; (2) This property value consisted of physical plant assets (\$42.2 billion) and the book value of endowment (\$10.8 billion); (3) The book value of buildings at institutions of higher education totaled \$31.9 billion; (4) Indebtedness on physical plant increased 6.9% from \$8.8 billion at the beginning of 1969-70 to \$9.4 billion at the end of the year; (5) During 1969-70, the book value of endowment increased 3.5%, whereas market value went down 12.4%; (6) Privately controlled institutions reported 82.9% of the book value of all college and university endowment at the end of the 1969-70 fiscal year; (7) At the end of 1969-70, the endowment of colleges and universities had an average market value of \$1,756 per fulltime-equivalent student.

The value of property owned or utilized by institutions of higher education at the end of the 1969-70 fiscal year was \$53.1 billion. This was a \$4.3 billion, or an 8.8-percent, increase over the balance at the beginning of the year.

This property value consisted of physical plant assets--\$42.2 billion--and the book value of endowment--\$10.8 billion.

The book value of buildings at institutions of higher education totaled \$31.9 billion, or 75.7 percent of all physical plant assets. Equipment and land were valued at nearly \$7.2 billion and nearly \$3.1 billion, respectively.

Indebtedness on physical plant increased 6.9 percent, from \$8.8 billion at the beginning of 1969-70 to \$9.4 billion at the end of the year. Indebtedness represented 22.3 percent of the book value of physical plant assets.

During 1969-70, the book value of endowment increased 3.5 percent, from nearly \$10.5 billion to \$10.8 billion, whereas the market value went down 12.4 percent, from \$12.8 billion to \$11.2 billion.

Privately controlled institutions reported 82.9 percent of the book value of all college and university endowment at the end of the 1969-70 fiscal year.

At the end of 1969-70, the endowment of colleges and universities had an average market value of \$1,756 per full-time-equivalent student. The average endowment per student for privately controlled institutions (\$5,252) was much higher than that for publicly controlled institutions (\$413).

FOREWORD

This publication presents a part of the data provided by institutions of higher education in response to a questionnaire entitled "Financial Statistics of Institutions of Higher Education, 1969-70" (OE Form 2300-4), which was included in the fifth annual Higher Education General Information Survey (HEGIS). The questionnaire acquired data for the 1969-70 fiscal year on current funds revenues, current funds expenditures, physical plant assets, indebtedness on the physical plant, the value and earnings of endowment, and data for basic student charges in 1970-71. A previous publication, Financial Statistics of Institutions of Higher Education, Current Funds Revenues and Expenditures, 1969-70 (OE 74-11419), presented the tabulations of current funds revenues and expenditures. This publication deals with the property-related data.

A small number of institutions of higher education did not respond to this questionnaire (see Appendix E, List of Nonrespondents). Data were imputed for these institutions so that all national and State totals would represent all institutions of higher education (see Appendix A, Methodology).

We extend our sincere appreciation to the more than 3,000 business officers and other officials of those institutions and other agencies who assisted in the development of the survey and completed the questionnaire.

SUMMARY

The value of property owned or utilized by institutions of higher education at the end of 1969-70 was:

<u>Item</u>	<u>All institutions</u>	<u>Public institutions</u>	<u>Private institutions</u>
(Billions of dollars)			
Property	<u>\$53.1</u>	<u>\$28.6</u>	<u>\$24.4</u>
Physical plant assets	42.2	26.8	15.5

Indebtedness on physical plant	9.4	5.8	3.7

NOTE.--Details do not add to totals because of rounding.

Property is defined here as both physical and financial assets. The physical assets include land, buildings, and equipment. Financial assets primarily include the book value of endowment investments.

The \$53.1 billion figure represented an increase of \$4.3 billion (8.8 percent) in 1969-70. The increase in 1966-67--the last year prior to the subject year (1969-70) that property data were surveyed--was only \$3.7 billion, but at that time this represented an increase of 11 percent.

Among components, book values during fiscal year 1969-70 showed an increase of \$3.9 billion (10.3 percent) for physical plant and \$368 million (3.5 percent) for endowment. Total indebtedness in that year increased by more than \$604 million (6.9 percent).

Total property values for publicly and privately controlled institutions were \$28.6 billion and \$24.4 billion, respectively. The value of physical plant for publicly controlled institutions increased from \$23.9 billion to nearly \$26.8 billion during 1969-70, but book value of endowment increased only slightly. Physical plant value for privately controlled institutions increased by \$1.1 billion; book value of endowment, by nearly \$332 million.

Publicly controlled institutions continued to have more indebtedness on physical plant: in 1969-70, indebtedness figures were nearly \$5.8 billion for publicly controlled, and nearly \$3.7 billion for privately controlled, institutions. In 1966-67, the comparable figures were \$5.0 billion and \$2.8 billion.

Physical Plant Assets

Physical plant assets rose \$3.9 billion in 1969-70 to a total of \$42.2 billion. Publicly controlled institutions showed the larger increase--\$2.8 billion, compared with \$1.1 billion for privately controlled institutions. In 1966-67, physical plant assets increased by \$3.6 billion, of which nearly \$2.4 billion was reported by public, and nearly \$1.3 billion by private, institutions. In the 2-year period since 1967-68--the last year that plant data were surveyed--plant assets increased 22.1 percent from the total then of nearly \$34.6 billion.

Physical plant assets were reported in three categories--land, buildings, and equipment. The largest category--buildings--totaled \$31.9 billion, or nearly 75.7 percent. Of this amount, nearly \$20.0 billion was reported by publicly controlled, and the remainder by privately controlled, institutions. In the other categories, the amounts at the end of 1969-70 were nearly \$3.1 billion for land and nearly \$7.2 billion for equipment.

Indebtedness on Physical Plant

In 1969-70, indebtedness of \$9.4 billion represented about 22.3 percent of all physical plant assets in institutions of higher education; in 1966-67, this category represented 25.8 percent.

Publicly controlled institutions continued to owe more (nearly \$5.8 billion) than did privately controlled (nearly \$3.7 billion). In terms of percentages of physical plant assets, the two groups changed from 27.5-percent indebtedness (publicly controlled) and 23.1-percent indebtedness (privately controlled) in 1966-67 to 21.5-percent and 23.7-percent indebtedness, respectively, in 1969-70.

Of the more than \$604 million net increase in total indebtedness, nearly \$284 million was for publicly controlled, and nearly \$321 million for privately controlled, institutions. The amount for the public group resulted from nearly \$611 million in additional funds borrowed during the year, minus \$327 million repaid. The amount for the private group reflected \$513 million borrowed and nearly \$193 million repaid. The additional principal borrowed represented 26.4 percent of the value of the total additions to plant held during the year, which was nearly half that for 1966-67 when the figure was 29.9 percent.

Endowment

Institutions of higher education realized earnings of nearly \$519 million on total market value of endowment of \$11.2 billion during 1969-70. Publicly controlled institutions reported earnings of \$77 million (a gain of 4.2 percent from 1966-67); privately controlled, more than \$441 million.

During 1969-70, the book value of endowment increased by more than \$368 million to a total of \$10.8 billion. Market value, however, decreased nearly \$1.6 billion to \$11.2 billion.

Endowment is defined here as including permanent and term endowments, quasi-endowments, and endowments held in trust by others. In addition to measuring the beginning and ending book and market values of endowment, the survey also collected information on earnings on such items as rents, dividends, and interest as well as gains from appreciations of investments.

METHODOLOGY

The survey form "Financial Statistics of Institutions of Higher Education," OE-2300-4, was sent to 2,552 institutions as part of the Higher Education General Information Survey (HEGIS) package for 1970. A copy of the survey form is shown in appendix F.

Completed questionnaires were received from 2,379 institutions—a response rate of 93 percent. The number of institutions surveyed and the numbers of respondents and nonrespondents, by level of institution, control, and region and State, are shown in appendixes B, C, and D, respectively. The institutions that failed to respond or to provide adequate data are listed in appendix E.

One of two methods was used to adjust for nonresponses, depending on whether an institution's data were available for a prior or succeeding year. If an institution had reported data for another year, those data were adjusted in accordance with trends established in previous HEGIS surveys and then entered as the institution's report for fiscal year 1969-70.

If no other year's data were available for an institution, peer institution data for fiscal year 1969-70 were used. Peer institutions were selected on the basis of three criteria: location (State or region), level of institution, and enrollment size.

HIGHER EDUCATION GENERAL INFORMATION SURVEY FINANCIAL STATISTICS OF INSTITUTIONS OF HIGHER EDUCATION FOR FISCAL YEAR ENDING 1970

INSTRUCTIONS AND DEFINITIONS

GENERAL

This financial survey is designed, in general, to be compatible with groupings and definitions in *College and University Business Administration, Revised Edition*, published by the American Council on Education, 1785 Massachusetts Avenue, NW., Washington, D.C. 20036.

This is a statistical report. If exact data are not available, please estimate.

Please examine the definitions and instructions. If you need additional clarification on any of the items, please call Mr. Paul F. Mertins at 202-962-7301, in Washington, D.C.

Data requested on this financial survey are for the fiscal year of your institution.

Data for your institution which are not kept on the books of account of your institution, but are kept on the records of another organization or agency for your institution, should be included (e.g., State schools should report physical plant even though records are maintained by a State agency).

Estimated value of "contributed services" (members of a religious order only) should be included under revenues (private gifts) and expenditures in appropriate categories.

In reporting Federal funds received, include those Federal funds channeled through State agencies.

Exclude agency funds; i.e., funds handled by the institution in a custodial capacity only (e.g., funds for student organizations).

Detailed instructions and definitions are provided for each part. If further explanation is necessary, consult the *College and University Business Administration, Revised Edition*.

All data reported should be whole dollars only—omit cents.

Please complete this survey and return it to the U.S. Office of Education, National Center for Educational Statistics, 400 Maryland Avenue, SW., Washington, D.C. 20202, ATTENTION: Room 1130-HEGB, not later than November 30, 1970. This form should be completed and returned within 3 months after the close of the fiscal year for your institution (e.g., if your fiscal year closes on May 31, the form should be returned by August 31; if on June 30, by September 30, etc.).

NOTE: This year's form is in six parts. For any item in any part where exact data do not exist, please give estimates. Items referenced in specific instructions below, will be referred to by their line numbers.

A corresponding amount, as well as the amount of other student aid granted out of current funds revenues, should be shown as expenditures of student aid grants (Part B, Line 11).

LINE 3. Governmental appropriations include all amounts received from governmental sources that are expendable for educational and general purposes. This item is the sum of Lines 4 through 6.

Include, also, revenues for activities of a cultural nature, e.g., concerts, dramatic productions.

LINE 29. This item is for revenues for educational and general purposes not covered elsewhere. Important items and those of major magnitude which are reported here should be explained in a separate note, or attachment, accompanying this survey.

LINE 30. Student aid grants--do not include loans or work assignments. Report only grants, scholarships, and fellowships to students for which no services or repayments are required of the student. This item is equal to the sum of Lines 31 through 36, inclusive.

LINE 37. The figure reported here should be the sum of Lines 38, 39, and 40.

LINE 43. Examples of other auxiliary enterprises would be college unions, revenues from intercollegiate athletics, etc. If of major magnitude, attach to this form a note explaining which items are included in this item.

PART C - PHYSICAL PLANT ASSETS FOR FISCAL YEAR ENDING 1970

In Part C, report data on physical plant assets: land, buildings, and equipment (not plant cash or investments of plant cash). COLUMN (3). Additions during the year are additions to plant made through purchase, by gift-in-kind from donor, and from other additions.

COLUMN (4). Deductions from the plant are deductions resulting from selling, razing, fire or other hazards, or other disposition of assets, or from obsolescence.

COLUMN (5). Book value of plant at the ending of the fiscal year is intended as the dollar amount of value as shown on the institution's accounting records. Provide estimates for assets not recorded in the accounts of the institution.

PART D - INDEBTEDNESS ON PHYSICAL PLANT FOR FISCAL YEAR ENDING 1970

In Part D, report data on indebtedness liability (*principal only, not interest*) against the physical plant. Include auxiliary enterprises facilities as well as educational and general facilities. Examples of auxiliary enterprises facilities are those used for operation of housing, food service, bookstores, and other units which are classified as auxiliary enterprises.

LINE 1. Balance owed on indebtedness principal at the beginning of the year is that amount shown in the liability section of the plant fund balance sheet.

LINE 2. Additional principal borrowed during the year is loans received through bonds, mortgages, notes, or any other type of financing (*including short-term notes*) and amounts borrowed from other institutional funds.

LINE 3. Payments on plant loans principal during the year is the amount expended to reduce the principal of loans, regardless of the source of funds.

LINE 4. Balance owed on indebtedness principal at the ending of the year is that amount shown in the liability section of the plant fund balance sheet. It is the sum of Line 1 plus Line 2, less Line 3.

PART E - ENDOWMENT BY BOOK AND MARKET VALUES, EARNINGS, AND REALIZED GAINS FOR THE FISCAL YEAR ENDING 1970

In Part E, report data on investment of endowment, term-endowment, quasi-endowment (*funds functioning as endowment*) and endowment held in trust by others.

LINE 1. Book value at the beginning of the fiscal year is the value shown on the accounting records of your institution.

LINE 2. Market value at the beginning of the fiscal year is the value shown usually in the footnotes of the annual financial report. (*If market value on some investments is not available, use whatever value was assigned by your institution, as included in the footnotes.*)

LINE 3. Book value at the ending of the fiscal year is the value shown on the accounting records of your institution.

LINE 4. Market value at the ending of the fiscal year is the value shown usually in the footnotes of the annual financial report.

LINE 5. Earnings include all earnings (*not realized gains*) on investments of endowment regardless of distribution made of the earnings to various institutional funds.

LINE 6. Net realized gains are appreciations (*amount selling price is greater than purchasing price*) on securities and other investments sold during the fiscal year. Not all investments are sold at a gain. Losses should be subtracted from gains in reporting here.

PART F - BASIC STUDENT CHARGES FOR ACADEMIC YEAR 1970-71

1. It is recognized that tuition and required fees and room and board charges are not the same for all students at an institution. Therefore, in selecting the single figure that will be most appropriately representative of your institution and comparable to other institutions, please be guided by the following:

a. Include all fixed sum charges which are **REQUIRED** of such a large proportion of all students that the student who does not pay the charge is an exception. If the amount varies depending upon the class level of the student, subject matter major, the courses taken, etc., estimate the typical or modal amount for charges which are required.

b. Do not include any charges which are clearly optional.

2. Report charges for the academic year. The academic year is the period of the regular session, generally extending from September to June, usually divided into 2 semesters, 3 quarters, or 2 trimesters. Most baccalaureate degrees are received after 4 or 5 academic years of attendance. For baccalaureate degrees requiring 4 academic years of attendance this usually comprises 8 semesters (*2 per year*) or 12 quarters (*3 per year*) or 8 trimesters (*2 per year*), even though it may be possible to receive the degree in a shorter calendar time, such as completing 12 quarters in 3 calendar years or 8 trimesters in 2-2/3 calendar years.

3. If the institution has a single lump-sum charge for tuition, required fees, room, and board, please apportion the lump-sum charges among the appropriate categories.

4. Omit cents in reporting dollar amounts.

TUITION AND REQUIRED FEES

ITEM A. Undergraduate students are those who have not obtained a bachelor's degree: (1) all students in bachelor's degree programs which require at least 4 years but fewer than 6 years of college work; and (2) all students in occupational or general study programs which require 1, 2, or 3 years of college work and which are designated to prepare for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor's degree program.

ITEM B. Graduate students are those who have attained at least one standard bachelor's degree or first-professional degree and are or could be candidates for master's or doctor's degrees. They do NOT include candidates for the degrees of D&C, Pod.D, DDS, DMD, MD, OD, DO, DVM, LL.B, JD, BD, or other first-professional degrees.

The "in-district" (*Lines 2 and 6*) and "in-State but not in-district" (*Lines 3 and 7*) distinctions apply only where an institution, usually a community college, has different rates for those types of students.

LINES 2 and 6. "In-district" students are those living in and attending an institution operated by the same district or political subdivision within a State as the institution.

LINES 3 and 7. "In-State but not in-district" students are those living in the State but not living in the district in which they are enrolled. If there is an additional fee for in-State students from outside the district of the institution, and the fee is charged to the student and not to the home district of the student, the sum of this additional fee and the regular fee for in-district students should be entered in Lines 3 and 7. The foregoing is applicable to undergraduate and graduate students.

Public institutions which have only two rates, one for residents of the State, and one for nonresidents, should report their fee rates on Lines 3 and 4 for undergraduates and on Lines 7 and 8 for

graduate students, entering "N.A." (not applicable) on Lines 2 and 6.

ROOM AND BOARD CHARGES.

ITEM C. Report as room charge (academic year) the modal charge to a typical student sharing a room with one other student.

ITEM D. Report as the board charge (academic year) the modal charge to a typical student. Please check the number of days per week for which the board charges are applicable (5, 6, or 7).

If your institution makes a combined charge for room and board, please make an estimate of the proportions of the total charge in each of the categories.
